The diagram illustrates the architecture of the 25 Most Wanted Active Server Page system. A **Client Browser** (2504) is connected to a **Server** (2500). Inside the server, the **25 Most Wanted Active Server Page** (2506) is connected to the **25 Most Wanted Page Control Component** (2508). This control component is further connected to two other components: the **25 Most Wanted Page Business Component** (2510) and the **ICBAM Architecture Component** (2512). Both the business and architecture components are connected to the **SQL Server7 Database** (2502).
